JOIN THE PLAY-TO-EARN REVOLUTION

WHAT IS BIT RIVALS

At Bit Rivals, we're revolutionizing how gamers interact with their favorite titles.

Rewarding Gameplay

We reward the gamer's dedication to all the games they love, not just the new ones built for earnings. Play your favorites; earn for your achievements.

Unified Game Hub

Bit Rivals is where all games converge. From the latest Web3 adventures to indie gems and AAA blockbusters, our platform is the first to house every genre under one digital roof.

Empowering Game Creators

We're championing the next wave of gaming by providing robust development support, helping indie and Web3 games amplify their reach through seamless integration with our ecosystem.

THE PROBLEM

MOST PLAYERS CAN'T EARN BY PLAYING AAA GAMES

- ✗ Most earnings go to top streamers and Pro Tournament winners
- ✗ The majority of players don't have the time to become a professional or a top-level streamer and don't want to take the risk, leaving them without any meaningful rewards
- ✗ If players switch games or stop playing, all their in-game purchases end up having no value
- ✗ Developers and top-tier players benefit financially while casual players only receive entertainment value

PLAY-TO-EARN GAMES CREATE NEW PROBLEMS

- ✗ Play-to-Earn games often have boring gameplay or bad graphics, which sometimes makes earning money feel like a chore
- ✗ Removes player choice in which games they can play to earn crypto rewards
- ✗ Disparate blockchain games are not connected together; NFTs don't usually hold transferable value between games
- ✗ No common cryptocurrency between games, making most P2E tokens only valuable in a particular game economy

MAIN PROBLEMS

AAA GAMES ALREADY HAVE A MASSIVE PLAYER BASE

By tapping into the AAA player base and combining it with the wildly successful Play-to-Earn model, Bit Rivals can become a leader in the marketplace and capture a substantial portion of the market share. Here are player numbers from some of the largest AAA games:

CALL OF DUTY WARZONE

Over 100 million players since its March 2020 launch

APEX LEGENDS

Approximately 100 million players worldwide

PUBG

Over 1 billion accounts as of March 2021

FORTNITE

Over 80 million monthly active players and up to 4 million concurrent users every day

VALORANT

VALORANT

On average has 14 million monthly players

While there may be upwards of two billion gamers worldwide, a recent study estimated that there were less than 70 million blockchain wallets in existence. This means that potentially less than 3.4% of gamers are involved in cryptocurrency or blockchain-based gaming. The P2E model is at the very beginning of mass adoption with the players being early adopters.

OUR UNIQUE MODEL LETS PLAYERS OF ALL SKILL LEVELS GET IN ON THE REWARDS

COMPETITIVE PLAY

- ✓ Pits players against opponents of similar skill levels to create a fair and enjoyable experience for everyone
- ✓ Players can form their own teams, clubs, and tournaments
- ✓ Opportunity to form official partnerships with high-school and collegiate gaming clubs, along with professional esports leagues
- ✓ Tournament organizers earn rewards, just like tournament winners, creating an even bigger incentive for players to get involved in the community
- ✓ 1V1 challenge mode allows players to wager their performance in game against a friend's

PLAY-TO-EARN

- ✓ Players can earn \$RIVAL tokens and Rival Points just for playing their favorite games
- ✓ As players rank-up and collect NFTs they can earn even more rewards at a quicker rate, giving them another reason to keep playing
- ✓ Free to start earning rewards
- ✓ Compatible with any game that has accessible player data
- ✓ Points can be exchanged for raffle tickets or real rewards and discounts in the Rival shop
- ✓ Buying \$RIVAL tokens allows players to unlock premium perks and better rewards

GAMING PARTNERSHIPS

- ✓ Create an earning layer2 for blockchain games
- ✓ Introduce indie games to blockchain, helping them build web3 tech and raise funds
- ✓ Creates in-game quests and challenges for blockchain games to drive user acquisition and DAU
- ✓ Provided a new/expanded audience for hardware, gamer gear, and small gaming companies to advertise and find new customers

OUR MODEL

RIVAL REWARDS

Players can earn Rival Points by hooking up their Steam, Origin, Riot, or other gaming platform account to their Rival ID and hopping in-game.

Players will earn Rival Points for things like kills, damage, goals, special achievements, and through our task system.

Players can spend their Rival Points on raffle entries to earn prize pots, real world items, such as gift cards or gamer gear, or Rival Hero NFTs.

A quest system will allow partner games to host their own challenges and provide rewards, accelerating their user engagement

2,000

RIVAL ARENA

Players can join official Bit Rivals tournaments or create their own to compete for RIVAL against players of their own skills or earn $\$RIVAL$ for being a reputable organizer in the community.

Rival challenges will be a unique way for players to compete 1v1. Players challenge each other for a specific objective (example, most kills in the next game)

- ✓ Each player puts up a wager
- ✓ Each player loads into game and plays
- ✓ Winner takes all (small fee to Rival pot)

RIVAL STARTER

RivalStarter is an IDO / INO launchpad & investment group made from the most loyal \$RIVAL holders. The top 50 \$RIVAL holders, who must hold at least 1,000 \$RIVAL tokens for more than six months, make up the Rival Council.

150,000 \$RIVAL - Sigma tier
100,000 \$RIVAL - Alpha tier
75,000 \$RIVAL - Beta tier
50,000 \$RIVAL - Gamma tier

RivalStarter helps new games reach the established audience of traditional AAA games by automatically integrating them into the Bit Rivals platform on launch. Through connections with Pogr.gg, Bit Rivals can help indie developers create meaningful APIs for their projects that will help them succeed.

Bit Rivals' vision is to seek out new indie games and help onboard them into a web3 ecosystem, taking them on for incubation and helping them develop NFTs, blockchain tech, and find fundraising.

BIT RIVALS

DISCOVER

The Discover page brings the devoted base of Web2 gamers and AAA title players into the next-generation Web3 gaming ecosystem, with an array of promoted Web3 games from big names and indie developers alike.

Larger developers of Web3 titles can pay to be promoted on this page to reach a large and active player base, while smaller and indie developers can utilize Bit Rivals' incubation, advertising, and gaming integration services to take their project from concept to reality.

- ✓ All AAA, indie, and Web3 games in one place
- ✓ Voting, rating, and engagement for games
- ✓ Quest system for partner games
- ✓ Directly integration of partner NFT sales

BUSINESS MODEL

TOKEN UTILITIES

GOVERNANCE

Rival Council Dao

Top 40 holders will form a dao to vote on key company decisions and launchpad projects

Rival Voting

Top 40 holders will form a dao to vote on key company decisions and launchpad projects

UTILITY

Staking

\$RIVAL holders will be able to stake the token to earn APY based on lockup period.

Partner games

Partners will need to hold \$RIVAL token to advertise on discover page or create their own quest page

Tournaments

Tournament organizers must hold \$RIVAL in order to be verified and have access to greater revenue sharing

ACCESS

Rival Premium

Gamers stake \$RIVAL for rewards perks, such as higher earning cap, premium raffles, increased vault capacity

NFT sales

In order for guaranteed whitelist in future Rival and partner NFT sales, users must hold \$RIVAL

Launchpad

Investors will be able to access funding rounds based on the amount of \$RIVAL holding

ROADMAP

Bit Rivals is constantly evolving and improving. Our phased approach means that updates are broken down into realistic, achievable goals. Take a look at what the journey ahead looks like.

Phase one

Yu - Complete

- ✓ Token website design and build
- ✓ Initial socials creation and growth
- ✓ Initial platform signup scheme
- ✓ Initial platform proof of concept
- ✓ Seed funding round
- ✓ Onboard VCs
- ✓ Token contract creation
- ✓ CertiK audit
- ✓ Build staking/DeFi system
- ✓ Build swap tool
- ✓ Gleam Whitelist for Private sale
- ✓ Onboard market maker (Gotbit)
- ✓ Full platform public beta
- ✓ Integration of 12+ AAA games
- ✓ Steam integration
- ✓ Obtain Meta and Riot developer licenses

Phase two

Freeman

- ▶ Private funding round (Jan-Feb 24)
- ▶ KOL push (Feb-April 24)
- ▶ Quest to earn and QuestN campaigns (Feb-April 24)
- ▶ Referral scheme (Feb-April 24)
- ▶ PR schemes (Feb-April 24)
- ▶ Digital ad campaigns (Feb-April 24)
- ▶ Twitch streamer campaign (Feb-April 24)
- ▶ Reward competitions on platform (Feb-April 24)
- ▶ Gaming guild/club partnerships (Feb-April 24)
- ▶ Integrate additional AAA games (Jan-April 24)
- ▶ Integrate Web3 games (Jan-April 24)
- ▶ IDO through T1 launchpads (March 24)
- ▶ Launch on T1 CEX (April 24)
- ▶ Launch on PancakeSwap (April 24)
- ▶ Coingecko/CMC listing (April 24)

Phase three

Valentine

- ▶ Release staking/DeFi system
- ▶ Rival swap tool launch
- ▶ Expand gaming streamer campaign
- ▶ Partnerships with physical gaming brands
- ▶ Onboard esports teams/groups
- ▶ Initial Rival loot design and build
- ▶ Launch on additional CEX
- ▶ Rival Arena design and beta build
- ▶ Community challenges and tournaments
- ▶ Rival initial NFT offering (INO)
- ▶ Rival Loot beta release
- ▶ ETH Bridge
- ▶ \$RIVAL token integration with rewards
- ▶ Release of RivalStarter platform
- ▶ First INO/IGO offered through RivalStarter

Phase four

Croft

- ▶ RivalStarter private sales/hedge fund
- ▶ RivalStarter partner INOs
- ▶ Rival Arena full release
- ▶ Rival challenges/1v1 release
- ▶ Rival Arena push to gaming clubs
- ▶ Rival KOL network
- ▶ Incubator for Web3 games
- ▶ Onboard esports brand ambassadors
- ▶ Release of Bit Rivals SDK for new games
- ▶ SDK/consultancy for game data analytics
- ▶ SOL Bridge
- ▶ ADA Bridge
- ▶ Mobile app design and launch
- ▶ Fiat onramp integration
- ▶ Secret project

OUR SQUAD

Bit Rivals are a team of professionals with many years of collective experience in design, UI/UX, blockchain technologies, web development, marketing, social media, videography, game development and much more.
